# CCU-010 COMPACT COATING UNIT

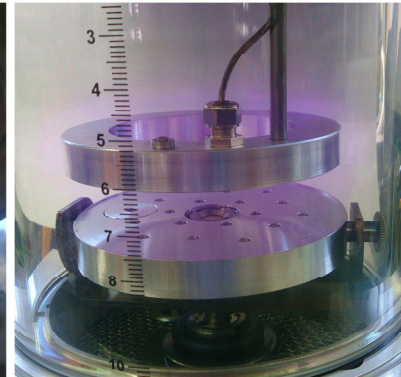

- Modular design with 100% compatibility & 100% upgradability
- Metal deposition, Carbon evaporation and plasma treatment with one single device
- Plasma treatment and Carbon coating without breaking vacuum
- Ingenious automatic Carbon feed for up to 50 coating runs
- Sputter deposition of challenging materials (e.g. ITO, Carbon)
- Remote diagnostic and maintenance

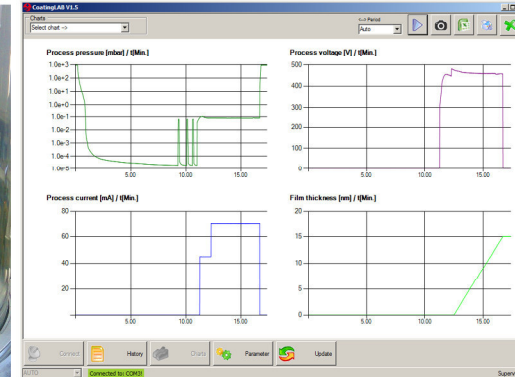

Sputter deposition

Thermal evaporation

Glow discharge

CoatingLAB PC-Software
